JUTA

The signature of assurance

Produced in heart of Europe

More than 25 years of experience with production, innovation and sales of round bale net wrap

Continuously tested on all common types of balers used worldwide

Why JUTANET?

- Applicable for silage, hay, straw and other crops
- Superior tensile strength
- Perfect coverage of bales
- Red warning stripe marking the end of the roll
- Produced from top quality raw materials using advanced technological processes
- High UV stabilization
- Identification of each roll by coloured edges and bar codes
- Continuous quality control during production process in accordance with ISO certification
